公司沿革

Company Profile

公司創立于1988年，草創初期以研發立體曲面披覆專用膠膜film及開發新版紋路為主，同時並將研發成功之材料，轉印于各種材質，各種不規則曲面之產品，歷經五年研發，始告成熟，并于1993，正式成立承鋒智慧股份有限公司，同時對業界提供加工服務，並將所累積經驗，對全球廠商提供整廠技術轉移輸出服務，及後續原料供應。目前接受我們技轉服務的廠商遍及全球，在最遠的歐洲及美洲及亞洲國家都有我們的伙伴。目前已有上千家之多。

The company was founded in 1988. In the initial stage, the company focused on developing film that is specially for using in the coating of cubic-curved surface and the veins of new printing plate; in the meantime, put the successfully developed films into the transfer-printing on every kind of products made of different materials. All the techniques mentioned above reached stability 5 years later. In 1993, Cheng Feng Chih Hui Co., Ltd. was formally established. Thereafter, basing on our abundant experiences on technique, the company provides processing service to all fields and also delivers, the service of turn-key plant project and know how and supplies relative materials to the manufacturers worldwide. Till now, we have more than 1000 clients throughout the world who have already accepted our service of turn-key plant project.

技術特色

Technique Feature

本公司所研發成功之立體曲面披覆轉印技術有三大特色：

一、紋路多元化：現備有

- A系列：木紋系列
- H系列：玉石系列
- I系列：設計紋路(夢幻系列)

共約近3000種紋路，供客戶選用。同時并可接受客戶委托開發專用新版紋路。

二、可加工多元化材質產品：

- 塑膠類(ABS、PC、PS、PU、PP、PVC、EVA...)
- 金屬類(鐵、鉛、不銹鋼、鋁、及各種壓鑄合金...)
- 木質制品
- 陶瓷、玻璃
- 碳纖維復合材料...皆能應用於曲面披覆轉印之加工技術。

三、整廠技轉，配套機器多元化：

可依客戶需求、設計符合經濟成本之生產線，同時我們的各種轉印設備已分別獲得中國、及中華民國之專利技術認證。

There are 3 features of the transfer-printing in the coating of cubic and curved surface that was developed successfully by the company.

1. Varied Grains: We have

- Series A: Wooden Grains series
- Series H: Marble Grains series
- Series I: Designed Grains (illusory series)

There are about 3000 kinds of grains available for customers to choose. We also accept the requests that clients asking for developing the brand new grains for their own use.

2. Being able to do transfer-printing on products which made of various kind of materials:

- Plastics: (ABS, PC, PS, PU, PVC, EVA)
- Metal: (iron, copper, Stainless steel, aluminium and various kinds of casting alloy.)
- Wooden products
- Ceramic and porcelain, glass
- Compound material of carbon fiber.

All of the materials mentioned above could be used on the technique of transfer-printing.

3. Delivering turn-key plant project & know-how and the matched machine is varied:

To design production line in accordance with the economical cost and customer's requirements. We got the certificates of technical patent on transfer-printing equipments in mainland China and Taiwan in 1996 and 1997 respectively.

經營理念 品質政策

Engagement Idea, Quality Policy

“承鋒智慧”本着熱誠、負責、創新、效率、利潤之服務精神，提供給廠商最快速的服務。為了能提供廠商更有保障更周全的服務，我們公司于1999年8月份提出ISO9002認證。并頒布品質政策——品質第一、服務優先、永續經營。全體“承鋒智慧”團結合作，努力落實生產管理，于1999年11月4日獲得了ISO9002的認證通過，并于2003年11月改版ISO9002-2000。通過了認證正是公司生產品保落實的開始，吾等全體“承鋒智慧”應兢兢業業時時以下一個工程就是客戶的理念與精神祈能為客戶帶來更有效率有保障的服務。

“Cheng Feng Chih Hui” bases on the spirit of Sincerity, Liability, Creation, Efficiency, Profit to supply all the customers the most rapid services. For the sake of more complete and protective services to our customers, in Aug of 1999, Company has applied for the certification of ISO9002; and proclaimed the quality policy “Quality First”, “Service Priority”, “Keeping Operation”, Under the solidarity and cooperation of all the members of Cheng Feng and the full execution of production management, certification of ISO9002 has been obtained on Nov. 4, 1999. Furthermore, revised edition of ISO9002-2000 was gained on November, 2003. Obtaining of the certification of ISO9002 means the beginning for the company to execute fully the quality-assurance during the producing process. Cheng Feng will continue to regard “the next project will be the customer” as our idea and spirit, so to provide our customers the most efficient and guaranteed service.

一、概念與實力
1. Concept and Real Strength

二、作業流程
2. Operational Process

CFP-100型自動活化劑塗膠機
Auto Activator Spraying Machine CFP-100

CFTE-120型專利恒溫轉印槽
Patented Lasting Temperature Transfer-Printing Tank(CFTE-120)

CFW-700型自動水洗處理機
Auto Washing Processor(CFW-700)

CFAT-680 3-D自動流膜轉印機
3-D Automatic Transfer-Printing Machine(CFAT-680)

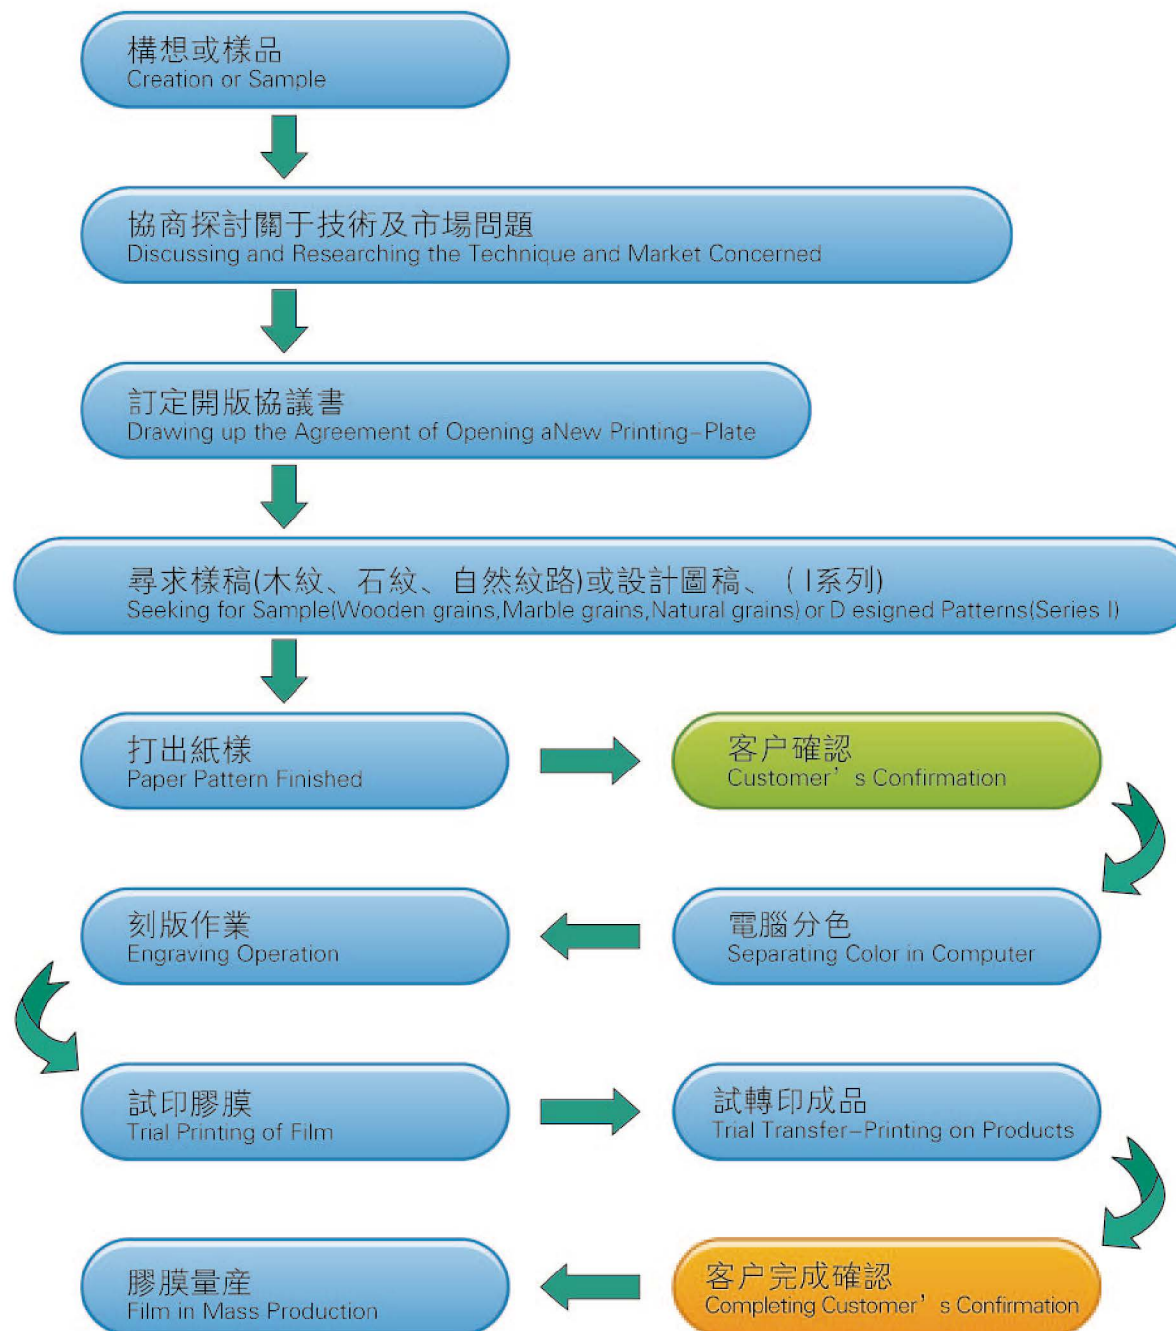

我們的實力

- 擁有近3000種紋路(含木紋、石紋、夢幻系列)
- 專業生產綫，交貨迅速
- 嚴格品檢，膠膜質量穩定
- 專業開發新版，效率迅速
- 專業人員，售後服務
- We have over 3000 kind of grains to offer your demand (including: wooden vein, marble vein, illusory vein.)
- Professional production line with quick delivery.
- Serious quality control and keeping the quality of film veins accurate.
- To be professional and rapid on developing new plates.
- To offer sales service by our specialized technician.

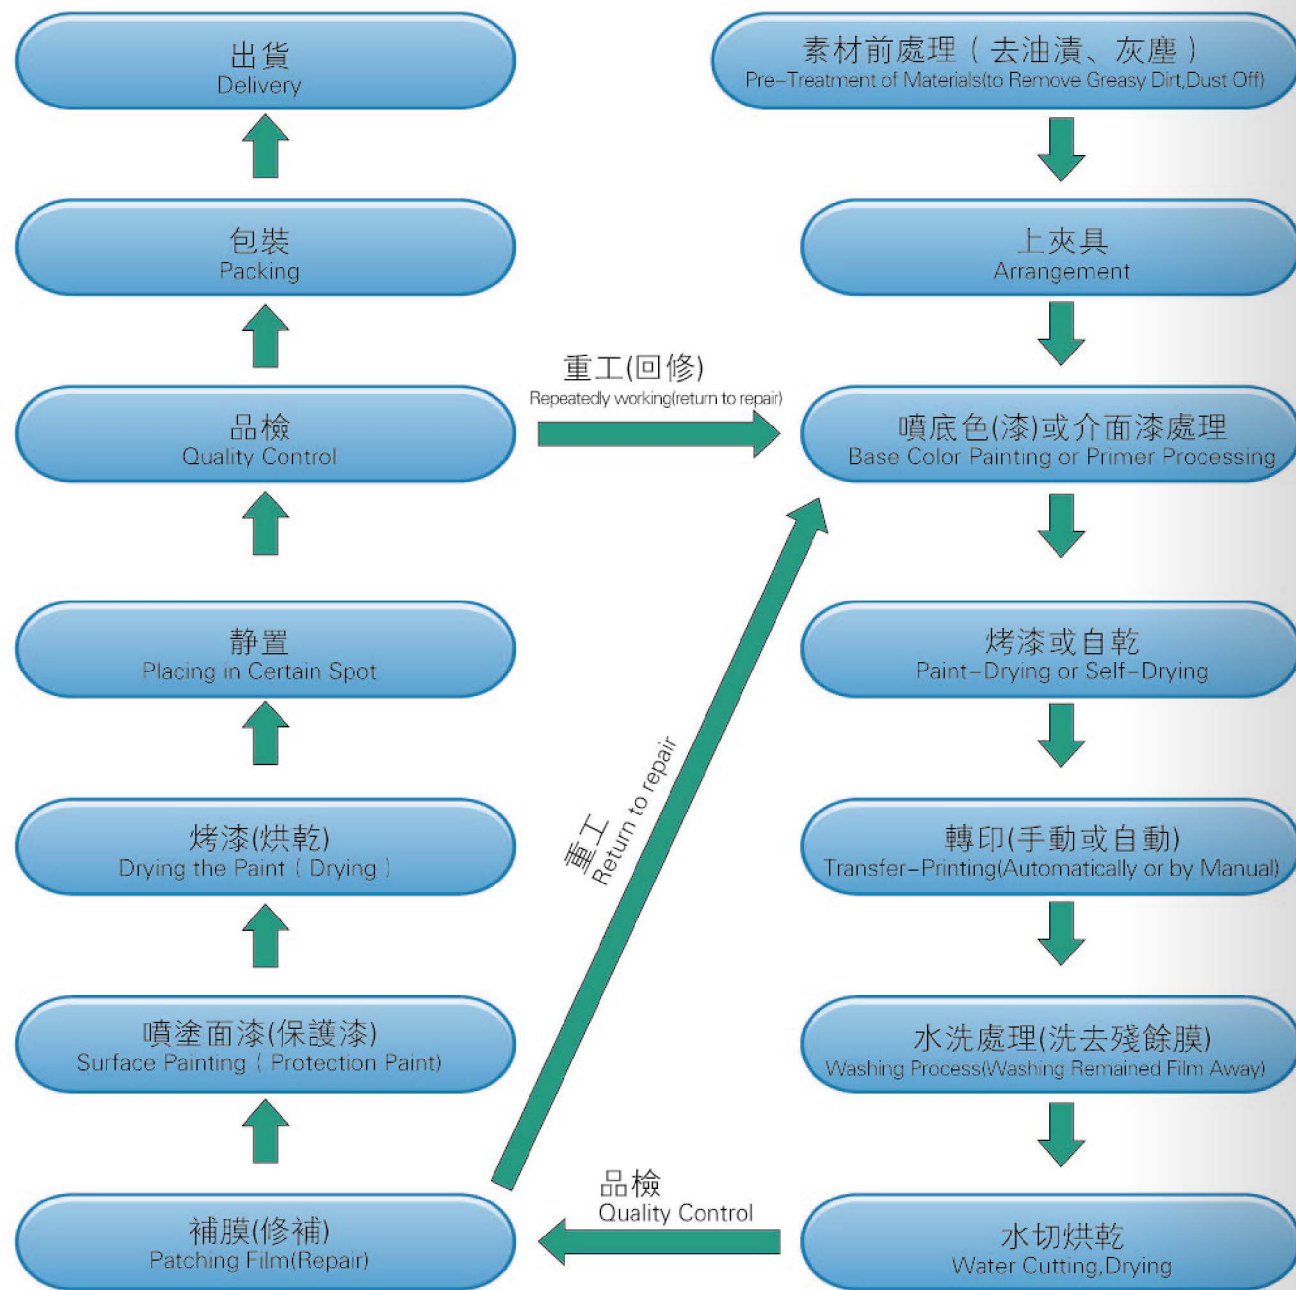

Our real Strength

嚴格品檢
Serious Quality Control

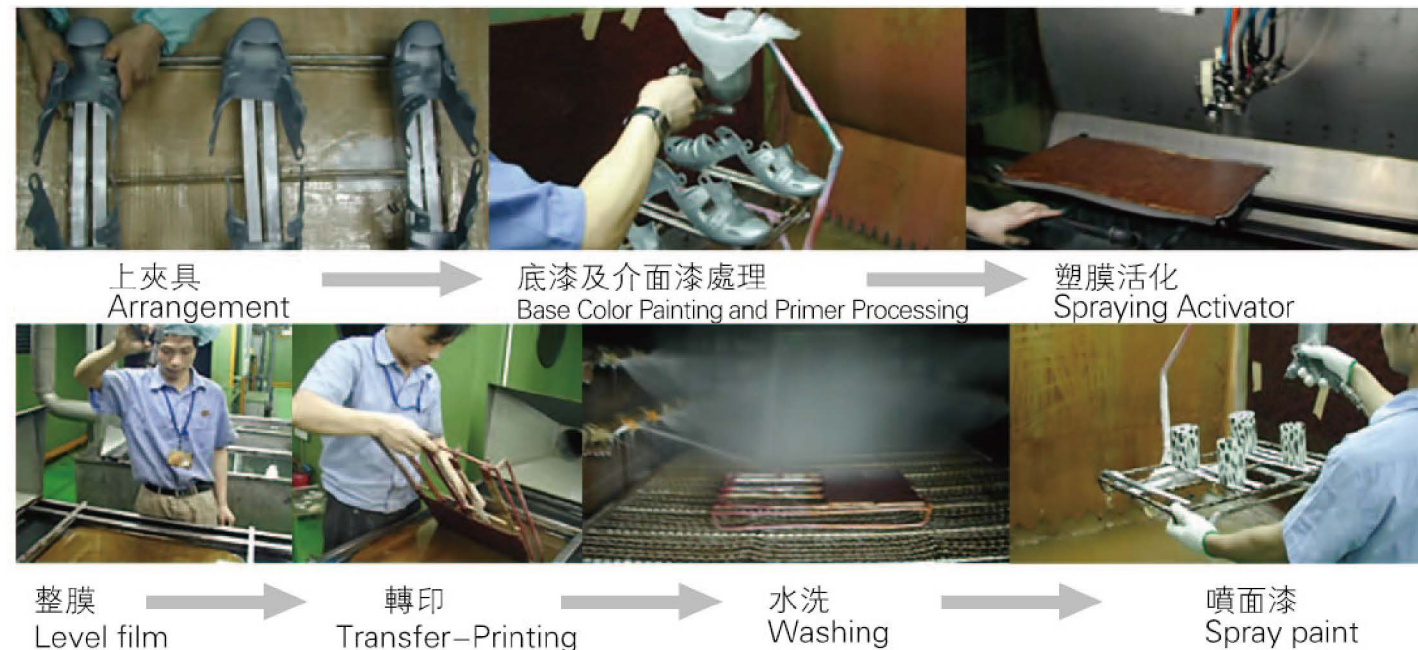

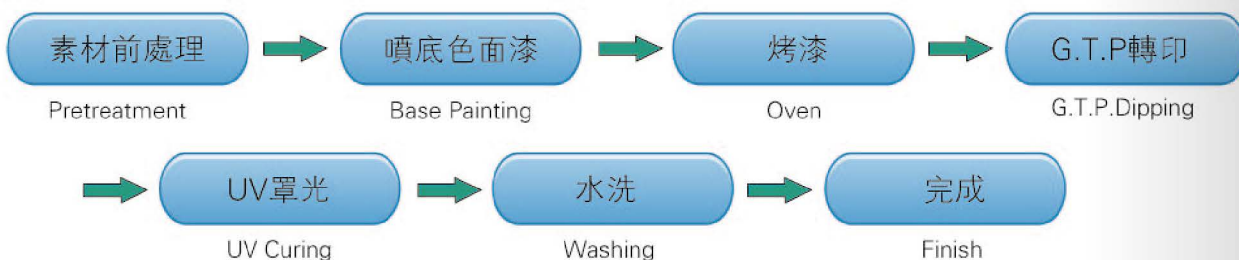

數位打樣系統
Digital Print System

G.T.P轉印技術流程

Green Transfer Printing Procedures

提供技術服務

Provide technical service

- 立體曲面轉印加工
- 一般塑膠噴漆加工
- 特殊塗料噴塗加工(含彩繪、皮革、絨毛、軟質漆、變色龍、鈦金、熱轉印、水膜標)
- 依客戶專案設計加工
- 共同開發產品
代客開發模具與注塑
- Transfer-printing process for the cubic and curved surface
- Painting process for the general plastic
- Sepecial processing service of painting(including color drawing,leather,down soft paint,color changing,titanic alloy,heat transfer-printing,water film marking)
- Design processing service based on the requirement of customers
- Toco-develop products
To develop mold and injection form for customers.

新型技術

- N.S.P.噴鍍技術
Nanometer Spraying Plating
- G.T.P.綠能轉印技術
