

Cushion

Soft type Breathable Seat Cushion

45x45cm

Features

Fast heat dissipation / Breathable good / Comfortable / Slip

Made of soft and breathable mesh, it can be rolled up for easy carrying and is perfect for road trips, hiking, and ball games, etc.

It allows air to flow through the meshes to achieve cooling effect.

The breathable top is made of fine mesh fabric which is soft to touch. The high elasticity sandwich mesh in the middle is officially tested and certified by SGS. It will not flatten out to your body weight. That means, the breathability is always maintained. The cushion is with an anti slip mesh bottom to prevent it from slipping. With these meshes, the cushion offers you different comfort, feel and heat dissipation. It is generally dry after spinning. It is easy to wash and easy to use.

Cushion

Features

The cushion is made of mesh materials with good flexibility, tensility and breathability. When the air conditioner is turned on during the summer, cool air circulates through spaces in mesh materials to keep you cool and refreshed while driving.

During the winter, hot air also moves and passes through the tiny spaces in mesh materials to keep you warm in winter.

The mesh is made of black yarn. It is not dyed. The color will not fade.

Designed to be comfortable and airy during long drives, Mesh is easy to keep clean with a vacuum cleaner.

The cushion is with a non-slip backing to keep the cushion in place

As a back rest: The ergonomic back support ergonomic design provides maximum support and comfort while seated especially when it comes to drive long distances. The 3M moisture wicking fabric offers dry and cool comfort.

B. Installation

As a back rest: Pull the elastic drawstrings on the back of the product to fit over the chair as shown in Figure.

As a booster: Just place the cushion onto the chair or pull the elastic drawstrings at the back of the product to fit under the chair.

	C. Notes	
--	-----------------	--

	<p>To clean the cover, please remove the foam by unlocking the zipper on the back. Please do not wash the foam to prevent it from deformation. Just expose it to sunlight for 15 to 20 minutes.</p>
